Because in the last two years we analyzed the impact of those activities and we agreed to offer support to our partners to increase the quality of their activities we want to develop a job internship for a group of 4 people for 6 months in which those interns will support the trainers/facilitators/group leaders teams of those events to organize a very qualitative activity.

It will be an unique opportunity to practice and learn facilitation and training techniques where you can do it with the support/ monitoring of a experimented team.

This project will be a practical long term TOT experience where for 6 months participants will go through all stages of a leaning event (training/seminar/youth exchange).
