## About the project :

The Nevo Parudimos Association decided to implement this project together with the partners because the statistics are showing how there is a significant disinterest from young people to participate more actively and decide their own future. At the regional level, in Reșița and Caraș-Severin County, young people participate, according to local and regional newspapers, only in an insignificant percentage of the vote, regardless of the elections. We consider that the desire for involvement would exist, only that the young people are poorly informed on the subject, so they get preconceived ideas about the voting process, the political class, etc. This phenomenon is even more serious among young Roma, especially those from poor communities, with limited access to information.

## The purpose :

Is to increase the participation of Roma young people in the decision-making process at local, national and European level.

## The objectives of the project :

The objectives of our project are:

1. to encourage a dialogue between the 25 participants from 5 European countries and politicians, during the youth exchange, for a better understanding of the voting process and active participation;
2. The development of the civic spirit among the 25 young people of Roma ethnicity, during the 8 days of the youth exchange
3. Increasing the knowledge of the 25 young Roma people about the importance of voting
4. to provide a learning dimension about state institutions and how they are interconnected, for the 25 young Roma participants, during the youth exchange;

## **Participants profile :**

The participants will be young Roma, coming from disadvantaged backgrounds and communities facing exclusion and discrimination, aged between 18-25 years. Leaders will be over 18 years old:

- from Romania will be young people from the Roma communities from the marginalized neighborhoods of Resita (Mociur, Dealu Mare, Calnic);
- from Greece are young Roma from communities in Thessaloniki and the surrounding area. These young people face marginalization and discrimination on a daily basis, so most of them have never voted, considering that they have no decision-making power;
- From Germany are young people from the Roma communities in Berlin, young people with whom the partner works in many of its activities, and young people who declare themselves ignorant when it comes to active participation;
- The participants from Macedonia are young Roma from Kratovo, coming from disadvantaged backgrounds and affected by marginalization and poverty;
- from Serbia are young people from Belgrade aged 18-25, of Roma ethnicity or living in communities in the suburbs of Belgrade and who have expressed the need to gain more knowledge about state institutions, such as which works the elections at local, national and international level, as well as the importance of the vote.

## **Output for the participants :**

- encouraging a dialogue between the 25 participants from 5 European countries and politicians during the youth exchange;
- better understanding of the voting process and active participation;
- development of civic spirit;
- increase of the knowledge regarding the importance of voting
- providing a learning dimension about state institutions and how they are interconnected.

## Other useful information...

- **The currency** - In Romania **the currency is RON, we do not use Euro.**  
The exchange rate can change but usually is like this **1 Euro = 4.9 Lei.**  
Do not exchange for less than 4.5 Lei.  
Life in Romania is usually cheaper than other European Countries.  
**You can use almost everywhere your credit cards (Visa, Mastercard, etc).**
- **Health insurance** - **All partners have the responsibility in assisting the participants for obtaining the EHC (European Health Insurance Card) which is free, or the participants will take care of this aspect by themselves.**  
In Romania the Emergency services in Hospitals are free (let's hope it doesn't come to this).
- **Clothing and weather** - as the weather can change from one day to another, we suggest you to have comfortable clothes and shoes for both situations, and be prepared in case of raining (which is most likely).  
In general, the **weather in summer is quite warm but can be also capricious! The average temperatures are 30-35° Celsius during the day, and the night at 15-20° Celsius.** We suggest you to bring along mosquito protection to ensure your comfort while staying in Romania. You can even bring your swimming suit; we can never know what opportunities for relaxing in our free time can come.
